SPOTTING CHEMISTRY

General Information/Technical Data Sheet

AlbaChem®VLR Letter Removing Solvent

AlbaChem Vinyl Letter Removing Solvent completely removes vinyl letters and residues from most fabrics. The Yorker spout allows for easy application minimizing waste. Highly effective and fast drying, Vinyl Letter Remover saves you time and money by dramatically reducing "seconds".

Advantages:

- Most powerful residue remover
- Great for removing tagless
- Fast Drying
- Leaves no stains
- Does not contain any chlorinated solvents

Packaging:

Item No.	Package Size	Case Pack	Case Weight	Hazmat Information
1020	20 fl. oz. (0.59 liters)	12	20.5 lbs.	Flammable Liquid, n.o.s/ *Limited Quantity Exemption

*Limited Quantity Exemption: This product, as packaged in the 20oz. containers, meets the exemption requirements of section 173.150 (49 CFR173) as a limited quantity for ground shipments within the United States. Limited quantities require the limited quantity diamond mark on all outer cartons.

Directions for use:

Use only in a well ventilated area. Shake well. Turn the garment inside-out and apply the solvent to the underside of the heat applied material. This will release the vinyl from the substrate. Once you have applied the solvent, it is best to stretch or pull the area of the mistake. This will make the heat applied material start to peel off of the garment. Pull off the remaining letter. Remove any residue left on the front side of the garment by applying AlbaChem Vinyl Letter Remover to a clean white rag and rubbing off the residue. Repeat process if necessary.

Technical Data:

Physical Properties:
Appearance: Clear colorless liquid
Solubility in Water: Yes
Odor: Solvent
Chemical Family: Acetal

Environmental:
Volatile Organic Compound (VOC): Yes
Hazardous Air Pollutant (HAP): No
Ozone Depleting Substance: No
SARA 313 Chemicals: No

Consult safety data sheet for all safety and handling information.
