TEKMAR

Bulk Adhesives

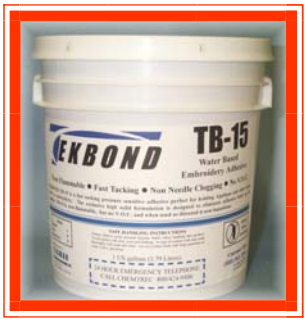

TEKMAR TB10 Pallet Adhesive

TEKMAR TB 10 is a revolutionary new adhesive developed specifically for the textile screen printing industry. Manufactured using newly developed synthetic polymer technology, TB 10 is designed to be sprayed through an adhesive applicator such as the TARGET TB500 or TB 1000 systems. It affords tremendous hold down for both Tee's and Sweats and has a tack time that rivals aerosol solvent based adhesives.

TEKMAR TB15 Embroidery Adhesive

TEKBOND TB 15 is a one of the first water based adhesives, formulated exclusively for the Embroidery Appliqué industry. It can be used as a temporary hold down for all types of appliqué. This unique adhesive, contains a revolutionary new polymer that resists adhesion to metal, eliminating build up on embroidery needles. It is non-staining, long lasting and a totally environmentally safe product. This non-hazardous, non-flammable adhesive, can be used safely in any sized shop allowing total OSHA compliance.

TEKMAR TB-STX Starch Based Adhesive

Tekmar's TB-STX starch based is the perfect solution for stabilizing tee's and other garments for all over printing. It easily separates after printing and dissipates as a powder. Any residual adhesive, like starch washes out. The superior holding formulation, ensure a static surface for printing and allows increased production and savings. This concentrated product can be diluted 1:1 with tap water
